# WORK TO BE DONE.

What the Coming Session of Congrass Will Have to Do.

The Last Session of the Fifty second Con gress Will Meet December 5-The Washburn Option Bill to Be Acted Upon-

Closing Up. Washington, Nov. 14.—On. Monday, December 5, three weeks from now, the Fifty-second congress will meet in final session. In the interest which has centered around the probable make up and action of the Fifte-third congress sight has been lost for the time of the important work yet remaining uncompleted on the calendar of the Fifty-second congress.

One of the first matters to be brought before the senate will be the Wash-burn anti-option bill which has already passed the house, and has shown that it has a clear majority in favor of its passage in the senate. The title of the bill is "H. R. 784, an act defining 'options' and 'futures,' imposing special taxes on dealers therein and requiring such persons engaged in selling cer-tain products to obtain license, and for other purposes." Its provisions are so sweeping that they would practically, it is charged. shut up the Chicago wheat pit, the New Orleans cotton exchange and other institutions of like character. A strong opposition to the bill was developed in the senate, but there was still a stronger movement in its favor. Mr. Washburn, of Minnesota, who had the bill in charge, only consented to lay it aside to allow an adjournment of con gress, when August had far advanced. condition that it should be made the first special order for the next session and should be fought out to a finish. This accordingly has to be done. The senate has a number of other important house bills on its calendar, including the "free wool bill" and other so-called "pop gun" tariff repeal measures of the house. These have slumbered hitherto in the committee on finance, but a determined effort will no doubt be made to bring them out and to send them up to the president for his action. The house my possibly be given an opportunity to reconsider the action and to take up the senate's free coinage of silver bill. The silver men will try to bring this

The appropriations for the current year will probably evoke little discussion except in one important respect. Secretary of the Treasury Foster, to whom the law requires that all estimates shall be sent prior to the meeting of congress, has already intimated informally that those estimates will simply be a duplication of the appro priations which congress has already igreed to be necessary for this year. and that no recommendations will be made for any increase of expenditure or force. The exception, upon which a lively discussion will be looked for, is that part of the sundry civil bill which makes appropriation for expenses of United States courts, commissioners, and marshals and deputy marshals.

Mr. Allison stated to the senate when reporting the sundry civil bill, as agreed upon in conference, that the reductions made by the house would inevitably result in a deficiency. The senate wished to appropriate \$000,000 for "fees and expenses of United States marshals and deputies." The house cut the amount down to \$75,000 and stuck to that figure. The senate gave \$145,000 for fees of United States comm sloners: the her knocked off \$45,000. The senate approprinted \$225,000 for fees of clerks, etc. The house reduced the amount to \$175, Any attempt to appropriate for deficiencies under these heads will assuredly precipitate a debate which will bring up the whole question of the election laws and their enforcement.

In the absence of Mr. Allison in Eu-

rope attending to his duties as a member of the international monetary conference, Mr. Hale, of Maine, will be acting chairman of the senate committre on appropriations.

# RIOT AT HOMESTEAD.

Sanday Outhreak Which at One Time Looked Alarming, But Which Only Re-solted in Several Brussed Heads and a yew Arrrests.

HOMESTEAD, Pa., Nov. 14. - Not since the famous 6th of July were flying bullets so plentiful as yesterday afternoon. Inside of twenty minutes over 500 shots were fired and Fourth avenue was in a

wild state of panie and disorder. Rumors are plentiful about persons being wounded, but the only ones seriously hurt apparently are three strik-ers, named McFadden, Jones and Prichard. They have all flesh wounds Three negroes were also badly beaten. The fight started on Fourth avenue about 4:30 o'clock. Two colored men who worked in the mill were walking toward the mill when they met a strik-

cr. who said something to them.

They replied and the striker knocked With the same extraordinary suddenness which always charac-terizes Homestead, so far as the gathering of crowds is concerned, about twenty persons, including children and en, assembled in a few moments. Both negroes fought hard, but stones began to fly and the men were besting them, when one colored man drew a re-

volver and opened fire. By this time there were fully 500 perons on the streets, and the bullets whistling over their heads started a Three men knocked down the second negro, and when he arose he had two revolvers in his hands. He started to run, shooting wildly back as

The negroes fled to their boarding house pursued by a mob. Eleven of them were arrested, seven of whom had out on their heads. In a short time everything was quiet.

### ANOTHER TRAIN ROBBERY

Bandits Again Raid the Santa Fe at Whar-

GUTHRIE, Ok., Nov. 11.—For the fourth time within two years the Santa Fe south bound train has been robbed at Wharton, a lonely little station in the Cherokee strip, forty miles south of

As the train pulled up there the brakeman, who first alighted, was knocked senseless by a blow from the butt end of a revolver. In an instant udozen shots were fired and two men jumped aboard the engine and, with drawn revolvers, ordered the engineer to pull out.

A third man uncoupled the express car from the train, and it was run a mile into the woods. The robbers then attached a dynamite cartridge to the side of the express car and compelled the engineer to touch it off.

A terrific explosion followed, blowing out the car door, breaking every window and shattering the whole side of the car. With an oath, the bandits leaped into the car and ordered Express Messenger George Wagoner to hand out the money in the safe. Being assured that he did not know the combination, they made an unsuccessful effort to open the safe.

Taking possession of the guns and re-volvers of the train men as their only booty, the robbers rode off leisurely. The engineer backed up and secured the rest of the train and then came on here, the train arriving at 2 a. us., with ev-erybody in a badly demoralized condi-

New ORLEANS, Nov. 12.—The great labor strike which was begun on October 22 has ended in the virtual defeat of the Amalgamated conneil, the strikers and unionism.

The sadden termination of the strike was due almost entirely to the prompt action of Gov. Foster, who came here Tuesday and after looking over the field, ordered all the militia in the state here, and issued a proclamation vir-tually putting the city under state control and, at the same time, notified the strike leaders that he would hold them strictly accountable for any bloodshed.

W. C. Greene, of Richmond, Ind., surprised his friends by wedding Mrs. Laura Edings, of Springfield, O., who was recently pardoned by the governor and released from the penitentiary, where she was serving a long term for the murder of her husband.

In 1871, after the great fire, he left home and with three other young men, whom he persuaded to join him, rented rooms in one of the poorest and rough est parts of the burnt district of North Chicago, and gave himself to relief and mission work. Here he started "Everybody's Mission," in a German beer hall and theater, afterwards removed to a building of its own. This mission, with an attendance of 350 to 450, music up of some of the worst elements, he sustained for five years without financial aid from any church or society. He has since organized and superintended North Avenue Mission, Lake View Mission, and Lake View Union Schools in Chicago, and Grace Sunday School, El-gin, besides several smaller enterprises

His first publications were prepared only for his own schools; then, to cheapen expense, he solicited orders from others. This was the beginning of a wonderful growth and popularity which, in sixteen years, has made hi name a household word.
